

Defining Moments Before, During, and After Men's Hangings

A collection of some of the most unforgettable images created by Madeira Desouza of men's hangings.

You force him to a wet finish as he chokes. He kicks and spasms wildly while you plunge into him—the very last feelings he will have as a man.

Watching him die at the end of the rope makes you wonder: What would turn you on more—seeing him wearing tight blue jeans, or, revealing his undefended cock and balls?

What does the big guy feel when he unwillingly shoots his final load?

Is he ashamed that he's ejaculating?

Is he terrified because he knows he will never feel another orgasm?

His right foot reaches down so his toes can touch the floor.

His face shows the terror he feels since he knows he won't be able to use his toes to keep the rope from crushing his neck.

His left foot reaches down so his toes can touch the floor.

His face shows the terror he feels since he knows he won't be able to use his toes to keep the rope from crushing his neck.

You realize that real power is tightly squeezing a hanging man's cock as he dies.

He looks down at the round iron weights chained to his ankles, pulling on his body and stretching his neck.

Round like his balls.

He suddenly understands he will never again use the tools of his manhood.

A powerful cowboy kicking his balls is the last sensation he has before dying with a noose around his neck—a real man's death.

You can suddenly feel an overwhelming urge to grab onto a hanged man's bulge.

Cowboy anticipates how his last moments of life will go.

He is mortified to realize
his long cock has chosen
this very moment to rise.

He screams for the loss
of his nuts sliced clean
through like ripe plums.

Seconds before he shoots his very last load, he feels sheer joy in the warm summer sun caressing his powerful body.

He chooses to end his life's journey leaving only a crushed neck and manly juices on his muscled chest.

His gallows dance bounces his cock and balls up and down, up and down. These involuntary movements delight the men witnessing his execution.

The age-old choice remains—should you fuck him before he hangs, or, let him take his virginity to the afterlife.

He will not be remembered as a promising young man destined for power.

Instead, he will forever be known for crying as he desperately begged for mercy at the end of a rope.

A defeated warrior with a hard cock hanged bareback on his horse creates tribal legends to be repeated for generations.

They promised him they were only playing around. He believed them. Then they let his legs fall freely. His boots were too far to reach the floor below.
